

Do you have asthma?

**Would you like to take part
in a clinical study?**

**The KALOS study is
looking for people who...**

- 12+** Are between 12–80 years of age
-  Have been diagnosed with asthma for at least 1 year
-  Don't have well controlled symptoms
-  Use the same preventer inhaler every day

**Taking part may help to develop new asthma
treatments and make a difference for people
diagnosed with asthma in the future**
